

Sales Letter - GLOBAL BUSINESS SOLUTIONS

Dear International Tax Specialist,

We think you'll be very interested in a program like this.

There are very few tax reduction solutions that impact companies as significantly as these. The fact is, one of the most important issues that we continually hear about is that **international companies want to get cash safely and securely to where it's most welcome**. At GBS, we not only know the best ways to accomplish this, but we have practically written the book on how to do it the smartest, and most cost effective way in this new, global economy.

The three international tax reduction vehicles we offer are:

- The International Limited Liability Company (LLC)
- The U.S. Corporation
- Tax-free investments in the U.S.

So how does it work?

- Your client does business with the American company
- Your client receives invoices from and makes payments to the American company
- The American company deposits the funds in its account in a European bank
- The money is then transferred to your clients offshore company's bank account in a tax haven
- Once the funds are "positioned" in the tax haven, your client can spend the money or invest it tax-free

What makes a U.S. company tax free?

- It must have no income or expenses in the U.S.
- The owners must be a foreign corporation or individuals who are neither residents nor citizens of the U.S.

The GBS Difference

What separates us from the competition is our ability to give quality advice, enact strict quality control, provide world class service and emphasize building an "image" for the companies we form. Our clients consistently tell us how much they appreciate this approach. We feel it's an approach that works. They know it is.

*"I am very satisfied with the level of service GBS provided, they are the best of the best"-
C. Woo, XYZ Company, Switzerland*

Why does Global Business Solutions strategy work?

- The United States is the worlds safest tax haven

- Its 100% legal, and 100% fail-proof
- Our unique approach and unparalleled service are industry-leading
- We make the process easy to understand and affordable
- By combining a U.S. company with an offshore company, we make the structure more difficult to uncover.

One Company that Benefited from using Global Business Solutions (GBS):

A client of ours in Europe received taxable income from various investments of approximately \$200,000, consisting of interest and dividends from bonds, stocks, and trust deeds which he owned overseas. He was in a 32% maximum tax bracket and paid taxes of \$64,000 per year on his income. As part of an overall business plan which we established, all of these assets were transferred into an International LLC. He now pays just 3% in taxes.

Now is the Time to Act

There has never been a greater demand for offshore tax solutions than there is today. With the rise of the internet, and the global economic climate, these strategies are now available to small partnerships, entrepreneurs, and large companies alike.

Global Business Solutions is uniquely positioned to assist your clients with all of their tax reduction needs.
